(2) In consideration for the services provided to Mare Owner pursuant to this contract, Mare Owner agrees to pay to Quarry Hill Farm the BREEDING FEE of \$ 2500.00 , consisting of the following:

(a) a non-refundable booking fee in the amount of \$ 1000.00 payable at the signing of this Agreement; and

(b) the balance of \$ 1500.00 payable and collected in full prior to the first shipment of semen.

Terms available upon request.

Make all checks payable to: Quarry Hill Farm

(3) In addition to the booking fee and stud fee set forth above, Mare Owner agrees to pay to Millbrook Equine all fees and deposits of semen collection, preparation, and shipment, as follows, all of which must be paid before the shipment of semen is needed by Mare Owner:

(a) All Collection, Preparation, Lab & Transportation Fees for Semen Shipments will be payable to Millbrook Equine. You make check with Millbrook Equine directly for all costs involved.

(4) All fees, deposits, costs, and other monetary amounts set forth in this contract are payable solely in United States Dollars.

(5) This contract is not transferable to another person and must be used for the breeding season specified in this contract. Mare Owner guarantees that semen provided by Quarry Hill Farm pursuant to this contract will be used only on the Mare named in this contract and any attempt to obtain a pregnancy with the transported semen in any mare other than the Mare described in this contract will result in the forfeiture of all fees and deposits previously paid to Quarry Hill Farm.

(6) The parties agree that all breeding will be performed using artificial insemination. Semen will be shipped in an Equitainer via FedEx Priority Overnight after collection from Stallion and will arrive at Mare Owner's prearranged destination the following day (time may vary depending on location.) Mare Owner agrees that Quarry Hill Farm and its owners, its employees and its agents are not responsible for any delays or failures in semen delivery outside of their immediate control. Mare Owner accepts and assumes the risks of delayed or lost shipments.

(7) Mare Owner will have the sole responsibility of determining the optimal breeding dates for Mare within the Breeding Season. Quarry Hill Farm and/or Millbrook Equine will arrange to ship sufficient chilled semen for one breeding cycle to meet Mare Owner's breeding schedule provided at least 48 hours notice is given in advance of the requested shipping date. If 48 hours notice is not given, Quarry Hill Farm will try to meet the needs of Mare Owner but will not be held responsible for failure to do so. Quarry Hill Farm reserves the right to charge an additional collection fee if proper notice is not given.

(8) Mare Owner accepts sole responsibility for a successful pregnancy using transported semen pursuant to this contract. If Mare fails to conceive after breeding through 3 heat cycles, Mare Owner will have the reproductive status of Mare reevaluated and after consultation with Quarry Hill Farm; Mare Owner must elect one of the following options by written notice to Quarry Hill Farm:

- (a) To continue breeding Mare pursuant to this contract;
- (b) To select a substitute mare and continue breeding;
- (c) To carry the breeding over to the next year; or
- (d) To discontinue breeding pursuant to this contract.

If Mare Owner elects to carry the breeding over to the next year, an additional administrative and handling fee of \$500.00 shall be charged and Mare Owner agrees to pay such fee to Quarry Hill Farm at the time such decision is made; and Mare Owner also agrees to pay to Quarry Hill Farm all fees and deposits of semen collection, preparation, and shipment as Quarry Hill will establish for the next year's breeding season.

If Mare Owner elects to discontinue breeding, all fees and deposits previously paid will be forfeited by Mare Owner Client to Quarry Hill Farm. There will be no cash refunds and all re-breed rights will be forfeited.

- (9) Mare Owner agrees that insemination will be performed by a licensed veterinarian or technician familiar with the procedure. Mare Owner further agrees to keep Mare in good physical condition throughout her pregnancy, including vaccinating for Rhinoneumonitis at 5, 7 and 9 months of pregnancy, regular de-worming and all reasonable and customary veterinary care. If such health care practices are not performed, all re-breeding privileges and breeding fees paid will be forfeited. Upon request by Quarry Hill Farm, Mare Owner will produce written proof of having carried out such health care practices.
- (10) Mare Owner agrees that Mare must be examined by a veterinarian using ultra-sound scan at 16 to 20 days post-breeding. At this time if Mare is in foal, Mare Owner must alert Quarry Hill Farm of the status of Mare and schedule a second ultra-sound scan for 32 to 35 days post-breeding and a palpation between 50 to 55 days post-breeding. If Mare is not in foal, Mare Owner must contact Quarry Hill Farm immediately so that Quarry Hill Farm knows Mare will need an additional semen shipment. Mare Owner understands that it is essential to call the manager at Quarry Hill Farm at the beginning of Mare's heat cycle, so that the parties may coordinate their plans for semen collection and shipment.
- (11) Mare Owner fully understands, authorizes, and assumes the special risks inherent in breeding horses and acknowledges that mortality and other insurance is solely Mare Owner's responsibility. All warranties whether express or implied, including without limitation warranties of merchantability and fitness for a particular purpose, and all special, incidental, and consequential damages are hereby excluded and disclaimed by Quarry Hill Farm to the fullest extent permitted by law. Quarry Hill Farm, its owners, agents, or employees shall not be liable for any cause of action whatsoever arising out of or in any way connected with the breeding or provision of any other service to Mare or any foal.
